

TAFLA Mirror

Material
inox

Steel TAFLA mirrors made in FiDU technology are as unique as the reflections in them. The new modular collection of mirrors gives another dimension of space and creates a unique story on your wall. Easily manipulative material allows us to create an entire collection of solids, so different and yet beautifully integrated with each other. Some of them are characterized by

geometric nature and respect for the proportions, while others are distinguished by unique, bionic form. Thanks to the common factor which is the FiDU technology, the world of design, art and technology are combined. The free inner pressure deformation of the mirrors gives everyone a special and unique form of revealing the true face of the metal.

- O1  225 × 100 × 6 cm
- O2  150 × 97 × 6 cm
- O3  124 × 79 × 6 cm
- O4  123 × 64 × 6 cm
- O5  60 × 40 × 6 cm
- O6  55 × 50 × 6 cm
- C1  225 × 99 × 6 cm
- C2  149 × 94 × 6 cm
- C3  124 × 67 × 6 cm
- C4  100 × 50 × 6 cm
- C5  55 × 40 × 6 cm
- C6  55 × 50 × 6 cm
- Q1  180 × 60 × 6 cm
- Q2  120 × 60 × 6 cm
- Q3  60 × 60 × 6 cm
- Q4  Ø 62 cm
- Q5  Ø 36 cm
